- Colored pencils (1)
- Protractor (1)
- Ruler (1)

Note from the teacher:

In science, we will focus on how science is done, explore core concepts, and apply our learning through experimentation, simulations, research, and assessment. Students should come prepared each day with a charged and updated computer, loose-leaf paper or a single-subject spiral notebook, a 2-pocket plastic folder for current work, and 1–3 highlighters. Staying organized is important. Students are responsible for keeping track of their notes, handouts, passwords, and assignment due dates. A single-subject notebook is recommended, as larger multi-subject notebooks and paper folders often become difficult to manage.

Optional supplies include a reusable water bottle and a music setup for independent work periods (such as a device with corded headphones). Due to Maine's cellphone policy, personal cell phones may not be used during the school day.
